Re Sacramento airtel to Alexandria, 10/9/73.

For the information of Seattle and Sacramento, contact with Chief of Police PHILIP HOURIHAN, Federal Aviation Administration, Police Department, Dulles International Airport, Chantilly, Virginia, determined that he is not aware of any information concerning the identity of D. B. COOPER.

Chief HOURIHAN advised that he was only joking when he stated, "What makes you think we don't know who COOPER is?", and did not mean to indicate that he or his department was aware of COOPER's real identity.

In view of the above, Alexandria is considering this matter as RUC.

On contact by [redacted] they found that HOFFMAN, about 62 years of age, had been drinking. He advances the theory that "COOPER" was building a house at Lake Merwin at time of hijacking. He jumped out of plane, landed in lake, his wife picked him up in a boat and took him home. The money is located in a partition at this house.

In view of age and condition of individual who furnished this information no further action being taken by the writer due to absence of concrete information.

Name BARNEY HOFFMAN to be indexed to this file in event HOFFMAN should call Seattle Division with his theory.

Dear Sir,

I am suggestively writing to you. About ~~the~~ airplane hijacking. I am an imaginative person and I have ideas come to me. I recently sent one to an airline. I am sending this one to you.

I think I see a possible way of altering the hijackers arena which could lead to other possible methods of thwarting.

The way I see it can involve a lot of or very little labor and material according to the degree of thwartment needed.

For planes smaller than the 747 I suggest that the aisle be interrupted with one or maybe two sets of seats be set up consecutively per each.

Memorandum

TO : SAC, SEATTLE (164-810) (P)

DATE: 12/12/72

FROM : SA THOMAS J. MANNING

SUBJECT: NORJAK

Re telephone call from SAMANNING to ASAC [] 12/12/72

Referenced phone call concerned an unknown subject who telephonically contacted Longview RA and furnished information that he knew where NORJAK subject was located.

[] came to the Longview RA early evening of 12/12/72 and advised he was person who have called RA that afternoon. He was intoxicated at the time he spoke with writer and his story was extremely disjointed and inconsistent. He spoke about a white "chute" with something hanging from it from two shroud lines. When asked where he got the information he stated about 25 of his friends have seen it and have been making fun of it as being the hijacker. He admitted he was drinking with several of these friends today and stated today was the first time he had actually heard about it and seen it. Then in almost the same breath he stated he couldn't see it because of the snow cover. He also stated that his union representative [] is the hijacker for he was missing the night of the highjacking and has had free fall training at an airport near Hillsboro, Oregon. [] is described as WMA, 5'10", slim build, blonde hair, starting to go bald, 160-150 pounds. []

He then stated that a friend [] one [] WMA, dark hair, slim build, 140 pounds, 5'6" - 5'7" is the hijacker for he has been missing since the time of the hijacking. He also stated a [] was the hijacker. []

[] is in Seattle indices [] matter which took place in Longview about three years, ago. He is also known to the writer as an alcoholic and an easily lead individual. It is also recalled that one night he was fleeing from WSP on IS5 and picked up a hitchhiker who later advised local authorities that [] had large paper sack full of \$20 bills and this was told to him by []. This was about the time of the hijacking itself. []

It is felt that a person of [] mental condition and general stupidity can not be looked upon as a person whose story as set forth above should be given any credence. T action is recommended in this matter.

NORJAK

At 2:35 PM, today SRA THOMAS J. MANNING, Longview RA, telephonically contacted the writer and furnished the following information:

At approximately 2:20 PM today SA MANNING received an anonymous call at the Longview RA from an individual who according to MANNING, spoke as an intelligent individual. This person asked MANNING what the reward in the "D.B. COOPER" case amounted to. MANNING related what the reward in this case is, whereupon the caller stated, "That's not enough" and hung up.

At approximately 2:23 PM, the same individual re-contacted MANNING at the RA and stated that he has observed the lower portion of a human body hanging from a parachute stating that he can see this through binoculars from his residence. SA MANNING encouraged the caller to give him more information but the caller refused to say anything more except that he would be into the Longview RA in about an hour and a half with some physical evidence in the captioned case.

I asked MANNING if he had any idea who the caller might be and MANNING said his voice sounds familiar. Further that the caller stated he knows MANNING by sight and in fact has been interviewed by MANNING in the RA.

SA MANNING was relating the above information to me in the event this materializes and it is necessary to saturate the area with Agent personnel for a search of the terrain.

ISSUES 72
INFORMATION CONCERNING

On [], ASAC [], Seattle Division, viewed a television show "ISSUES 72" on Channel 4, KOMO TV, Seattle. A comment was made on this show concerning the whereabouts of D.B. COOPER and additional comments were made concerning the handling of recent hijackings by the FBI.

b6
b7C

To determine exactly what these comments were, SA [] was assigned to view a videotape of the above described TV show on 12/1/72.

b6
b7C

The show "ISSUES 72" consisted of an interview by KOMO TV news personnel with [] Western Airlines Pilot and [] of the Airline Pilots Association (ALPA) and [] a Northwest Orient Airline pilot.

b6
b7C

The comment concerning COOPER was made by []. He was asked if he would care to comment on the whereabouts of "D.B. COOPER." He replied that he would not.

The comments concerning the handling of recent hijackings by the FBI were made by [] and they consisted of basically [] view that "violence breeds violence." [] stated it was his opinion that no outside interference should be undertaken without the pilot of the hijacked plane's approval. [] mentioned one exception to this rule, which he stated would be a case when a hijacked plane was forced to land in a foreign country. [] did not further describe the situation.

b6
b7C

Both [] and [] advised that ALPA is presently meeting in Las Vegas, Nevada. The purpose of this meeting is to determine what action should be taken by ALPA if the airlines fail to provide additional crew training and airport security.

Reference letter received from [REDACTED]
[REDACTED] Mexico, dated 4/27/93.

In reference communication, [REDACTED] forwarded two photographs of an individual she suspected might be identical with UNSUB in this matter. [REDACTED] stated that she had no information as to whether or not he was involved in captioned crime, and she admitted that she had mixed feelings about providing this information, since she was not sure that it was totally reliable.

A review of the photographs of the individual shows a white male in his late 50's or early 60's. The individual has a receding hair line and light blond or brown hair. He has light colored eye brows and very fair skin. In view of the fact that the individual depicted in these photographs is not, in any way, similar to the description of UNSUB in this matter, no further investigation will be conducted concerning this aspect of the NORJAK investigation.

Several times I have seen the "D.B. Cooper" segment on "In Search Of", on TV. Each time I notice that the artist's sketch of "D.B. Cooper" strongly resembles a man I knew in 1955. He was one of the USAF aviation cadets at Hondo Air Base, Texas. X

He displayed some unusual characteristics for a pilot candidate. He was disorganized and preoccupied. Though the academic schedule was posted well in advance, he would study the wrong subjects, and was a marginal student. In the flight phase of his training, he soloed the PA-18 Cub without serious problems, but barely made it in the more advanced T-6.

On the occasion of his first night cross-country flight, he made all the required radio calls (engine start, taxi, takeoff, and departure overhead on course). But he made no in-flight position reports until he called for permission to enter the traffic pattern. On questioning, he admitted he had not taken off;- he had made the radio calls from his airplane while parked on the ground at a remote part of the airfield.

Soon afterward, his background check revealed that he [redacted] [redacted] had this information been revealed in his statement of personal history.

The Air Force [redacted] [redacted] as an enlisted man.

In 1971, he was approximately [redacted] years old,- assuming he did not falsify his age in 1954, when he entered the pre-flight phase of Aviation Cadet training.

I have never mentioned this before, even though I have seen that program several times. First, the similarity in appearance is not too convincing, since it was an artist's drawing, not a photograph. Second, I didn't (and still don't) want to embarrass him or cause any problems for him. Third, I always hoped that "D.B. Cooper" would be identified. Fourth, if I had to bet on it, I would bet it is not the same man, because the appearance of the artist's drawing is that of a quite common type of face.

If you decide to bother with this, his name is [redacted]. X

Re Chicago letter to Minneapolis, dated 7/2/92, and
Minneapolis airtel to Seattle, dated 7/20/92.

[redacted] has been suggested as a suspect by [redacted]
[redacted] of being identical
with unknown subject (UNSUB) based on their perception that there
is a very strong facial resemblance between UNSUB in this matter
and [redacted]. They also stated that [redacted] appeared to be
secretive about his past and went to extremes to avoid having his
photograph taken. In addition, his sources of income appear to
be unknown to [redacted] and yet he seemed to have a
significant amount of money.

It is noted that the description of [redacted]
describes him as a white male, 5'7" in height, and born on
[redacted]. This would make [redacted] years old at the time of the
hijacking, which is [redacted] years younger than UNSUB is believed to
have been. In addition, [redacted] would be three inches shorter than
even the shortest estimate for UNSUB's height.

In view of this information, no further investigation
should be conducted concerning [redacted] at this time, and this
matter should be filed in Sub J, Miscellaneous Persons.

For the information of Chicago and Seattle, enclosed letter was entitled, "UNSUB, aka D.B. COOPER; CAA - HIJACKING; OO: MINNEAPOLIS."

In the matter of the D.B. COOPER hijacking, the Seattle Division is currently the office of origin. Due to that fact, the enclosed letter and FD-340 provided by the Chicago Division is being forwarded to Seattle for review and appropriate action.

In view of the fact that no investigation is outstanding at Minneapolis, this matter is considered RUC.

It is clear from the events of the hijacking that UNSUB did not care where the airplane went as long as it went south of the Seattle area. UNSUB would have no way of knowing where he was going to land and, therefore, probably did not contemplate finding anything that he had left on the ground when he landed there.

Re SUB J miscellaneous persons. [redacted] speculations. Also reference a letter from NORTHWEST AIRLINES to Seattle FBI dated 1/9/92.

[redacted] Hixson, Tennessee [redacted] wrote a letter to NORTHWEST ORIENT AIRLINES requesting information concerning the reward in captioned case. A copy of that letter was forwarded to the Seattle Office of the FBI by [redacted].

On 4/30/92, [redacted] was contacted at his home in Hixson, Tennessee, telephonically by SA [redacted] stated that he is engaged in pure speculation, however, it is his view that the UNSUB in this matter is actually a Black man who could pass for a White man. [redacted] stated the 551st Airborne was an Army Airborne Unit that was founded during World War II comprised of all Black men. They were unable to fight in World War II, but at the end of the war in 1946 some of them were sent to the north west to help fight fires. It is his assumption that one of these men that were sent here was, in fact, UNSUB who was actually a Black man who could pass as a White. [redacted] speculates that this caused the man frustration at the fact that he was Black and that this reason led him to hijack the NORTHWEST ORIENT AIRLINES airplane. [redacted] stated that he had no firsthand information and did not have "the big picture" but it just seemed to him that this was a possibility.

In view of the above information, no investigation appears to be warranted and therefore no further investigation concerning this aspect of the case will be conducted.

HERE GOES

After D.B. Cooper and Watergate was in its beginning, I was known as to the Acid. Freaks which led to Gerald Ford and Richard Nixon, which led to CIA and the phony fail safe that Nixon set up with the Code of the Boston Strangler deaths. Yes Nixon had ties to the Boston DA's office, to get correct times of deaths and the ME's also to fix ties to days of death and give a story to the whole nation so to put into a Code of his own. Example - speed limit 55

Oh, if you wonder about the Code of the Boston Strangler Case: Yes I did Break it down, as I written to

following cases.

Boston Strangler, DB Cooper hijack
passenger list. Atlanta missing Boys
relatives. Green River murder victims

victims and relatives + Boy friends?

The Big One. Savings and Loan
scandal. Yes the Code I broke given
the Bookkeepers alot of numbers to
change and the victims are using
this to laundry drug money or get
paid off for corruption in our system!

I feel that the 500 Billion should be about
200 million if the Books are examined and
the Code developed to erase the fraud
numbers. Neither Reagan or Bush are
investigating. I wonder why!

On 7/19/90, [redacted], Atoka, Oklahoma, contacted the Durant FBI, stating that a client of his (name refused) had information regarding above-captioned case. The client wished to remain anonymous but could provide information on the case, to include the identity of D. B. COOPER, his whereabouts and the location of a portion of the money.

The unidentified client refused to disseminate any information until he was sure he would receive a substantial reward for the information.

On 8/17/90, [redacted] was told that the reward offered was a percentage of the money returned. [redacted] advised that his client was only interested in a large sum of money, and as most of the money was already spent by D. B. Skyjacker's fate still debated 20 years later

by Neil Spencer
The Associated Press

SEATTLE — Yesterday was D.B. Cooper's 20th anniversary. But was it the 20th year of the legendary skyjacker's death or 20 years since he began a new life with a bagful of stolen greenbacks?

As is their annual custom, Cooper fans from Seattle to San Jose, Calif., to Salt Lake City organized celebrations to honor their hero, who they believe melted into society after committing the perfect crime — parachuting from an airliner over Washington state with \$200,000 in ransom money on Nov. 24, 1971.

Two decades after the unique exploit, which a retired FBI agent calls stupid and almost certainly real, Cooper's real identity is still a mystery. Nobody knows if he's a pile of bleached bones in the mountains of Washington or the guy next door.

Cooper's crime seems almost quaint in today's violent world. And his \$200,000 in marked money would hardly make him a rich man.

The story began Thanksgiving eve, when a man wearing dark glasses boarded a Northwest Airlines Boeing 727 at Portland International Airport. He used the name Dan Cooper to purchase his plane ticket. The name became popularized as D.B. Cooper after a law enforcement official erroneously referred to him that way.

Once airborne, "Cooper" handed the stewardess a note saying he had a dynamite bomb in his attaché case. The man, who chain-smoked Ration filter-tipped cigarettes and who appeared to be in his middle to late 40s, demanded \$200,000 in \$20 bills.

He collected the money — provided by the airline — during a brief stop at Seattle-Tacoma International Airport, where the 36 passengers were released and the four crew members were aboard.

Airborne again, Cooper parachuted into a raging rainstorm at 10,000 feet near tiny Ariel in western Washington, wearing only a business suit and loafers. The temperature was 70 degrees, not counting the wind chill factor at the plane's speed of 200 mph.

"It was obviously not well-thought-out. . . . It was stupid," said Ralph Himmelsbach, the retired

The Associated Press

Sketches made in 1971 are of man believed to be the skyjacker known as D.B. Cooper

FBI agent who spent nearly a decade investigating the crime.

If Cooper didn't freeze to death on his way down, he probably died when he hit the ground, said Himmelsbach, reached at his home in Redmond, Ore.

"And he came down right smack dab in the middle of the woods in really rugged country," he said. "There are steep, up-and-down ravines in really heavily wooded country. It was a bad place to land, and it is doubtful we would ever find the body."

The very fact that Cooper's identity has never emerged tells Himmelsbach the man was probably an ex-con.

Himmelsbach said he was further convinced that Cooper was dead after boys playing on the Columbia River in February 1980 found \$5,800 in crumbling \$20 bills that turned out to be from

Cooper's loot. He speculated that either Cooper landed in the Columbia and drowned, or died in the mountains and the money was washed out.

As usual, Cooper believers are having none of that. Each year, anniversary celebrations are held at taverns named D.B. Cooper in Salt Lake City and San Jose, and at a little bar in Ariel, where legend has it, Cooper paid an anonymous visit during an earlier party in his honor.

At the Salt Lake City tavern, where a celebration is set for Thanksgiving eve, the customers have a new explanation of Cooper's fate, said bartender John Nicolaisen.

A recently published book argues that Cooper was actually Richard F. McCoy, a Provo, Utah, man arrested and convicted of a similar hijacking in 1972. McCoy was later killed after a prison escape.

Enclosed for the Bureau are two copies of an agreement prepared by [redacted]

For the information of the Bureau, [redacted] who has a business address in Mountain View, California and telephone numbers of [redacted] and [redacted] has been in contact with the Seattle and other Divisions of the FBI, concerning captioned matter. He states he has done considerable research in connection with an individual whom he feels is a suspect in captioned hijacking and has a book which he has prepared concerning this. He has obtained fingerprints of this individual and desires to furnish them to the FBI for comparison with latent fingerprints which were located in the aircraft following captioned hijacking. It should be noted that there were some latent fingerprints as well as palm prints located in the aircraft.

It has been explained to [redacted] that he can make available to the FBI, the fingerprints which he has and that a comparison will be made and he will be advised of the results. He states, however, that on advice of his attorney, he does not desire to make these fingerprints available until the FBI has signed an agreement with him that they will not prevent him from publishing his book. It has been explained that the FBI will in no way interfere with the publication of his book and that obviously an identification of the subject would be a great benefit for him in marketing his book. He has stated, however, that because of his attorney's advice, he desires to have an agreement signed prior to making the fingerprints available.

Re Seattle letter to Knoxville dated 3/26/80.

Enclosed for Seattle are two copies of self-explanatory memo to file dated 5/29/80 detailing information furnished to Knoxville Division by [REDACTED] re captioned matter.

For information of Seattle, enclosed memo details the conversation held between SA [REDACTED], Knoxville Division and [REDACTED]. Review of the information furnished by [REDACTED] indicates nothing specific or verifiable at this time. It is believed by the Knoxville Division that [REDACTED] furnished this information on a pretext in an attempt to establish some credibility with the Knoxville Division inasmuch as several FBI Divisions have ongoing investigations involving [REDACTED]. Historically, [REDACTED] has been to cooperate with Federal and local law enforcement authorities only when it would be beneficial to him.

[REDACTED] was shown the four artist conceptions that were enclosed with the referenced communication. [REDACTED] advised that drawing number 3 most resembled [REDACTED] friend with the only changes being a thinner facial structure and a hairline that receded more.

Knoxville will maintain contact with [REDACTED] in an attempt to develop more specific information. Inasmuch as no positive information was developed, this matter is being ruc'd.

[redacted] Charlottesville, Virginia, was shown four artists' composites, two black and white and two colored, depicting the individual known as D. B. Cooper who skyjacked Northwest Orient Flight Number 305 on November 24, 1971. [redacted] viewed the four artists' composites and stated in her judgment, the black and white artist's composite without the sunglasses looks just like [redacted] John Scott Maze, who died of a heart attack in November, 1974, in Scottsdale, Arizona, at the age of 59.

She noted in addition to the information she furnished to the Federal Bureau of Investigation, Charlottesville, Virginia, on April 11, 1980, John Scott Maze did smoke cigarettes of the filter type but she could not recall the brand.

She also noted he was always extremely polite, even to her whom he did not care for at all.

She noted the composite she identified as looking just like John Scott Maze, looked like him without the "David Niven" type mustache he always wore.

She also recalled he always talked at a low modulation as he had an aversity towards loud noise. She added, she talks loud and that was one of the things Maze did not like about her.

[redacted] advised she has papers and photographs stored away and if she locates anything which would be of further value to the Federal Bureau of Investigation concerning Maze, she will contact the interviewing Agent and furnish it to him. b6 b7C

In conclusion she stated in her judgment, the composite picture she identified is a picture of John Scott Maze, and Maze's complexion was even more tan than the complexion depicted in the colored composites when she last saw Maze in person in 1972.

[redacted] related John Scott Maze, at the time of his death,
resided in a trailer home at 1149 North 92nd Street, Scottsdale,
Arizona. She noted that John Scott Maze had been employed by
AiResearch, Phoenix, Arizona, as an engineer for twenty years
prior to being fired in the middle 1960's for being an alcoholic.

b6
b7C

She continued after he was fired, he never held any
meaningful employment to her knowledge up to his death. She
added after he was fired, he used to disappear for two or three
months at a time and just go out into the wilderness of Oregon and
the state of Washington to be by himself.

She noted he was a "real loner" and had as little to do
with other people as he could.

Governor Dixie Lee Ray
State Capitol Buildings
Olympia, Washington

Dear Governor Ray;

I saw on T.V. Last night where you have announced that you are running for a second term.

My Article in the Yakima Herald Republic Valentine day I sent you and also President Carter congratulations on your second term in office. You have confirmed my Psychic prediction.

Governor Ray, there is something I wish to approach you about, And that is D.B. Cooper who hijacked a jetliner in 1971 and parachuted into folklore Somewhere in the area of Vancouver Washington.

Recently they found some of the loot in the sand beach near Vancouver wash. The FBI are still in a quandry about the find, and also the where abouts of the so named D.B. Cooper.

I am a well known psychic and have solved single handed and captured a county wide armed robber and escaped convict in the [redacted] and turned him over to the sheriff. This I followed my psychic intuition and wrote a note first of my vision and followed thru alone and was 100 % correct. this was the year [redacted].

b6
b7C

I have predicted many things psychically that comes true.

What I am trying to tell you is this;

Psychically I saw the white house close to the area where the loot was found last month. This white house had upright of 4 by 4s and ten inch ship lap boards and is about to fall into shambles. In fact part of the house is gone but the wall that is filled almost completely adjacent to the house is a fortification of the right place.

DB Cooper-29525

Governor Ray, I am quite confident that if I go to go with the land where the loot was found, I will find the loot that I would be able to lead the FBI of Washington law enforcement to this case of D.B. Cooper.

HOW HE FOILED FBI

SUBJ
1641-81-8348

Last November 24th, a man identifying himself as D. Cooper, parachuted from a Northwest Orient Airlines 727 jetliner between Seattle and Reno Nevada with a parcel containing 10,000 twenty dollar bills which was the ransom money that had been delivered to him while he held the planes crew hostage at the Seattle-Tacoma International airport.

The F.B.I. and other state and local law enforcement agents assisted by companies of G.I.'s from Fort Lewis have fruitfully wasted many hours and thousands of taxpayers dollars looking for Cooper.

So far Cooper has successfully eluded his following in the same ingenious manner that he pulled off his skyjack caper, coolly staying a safe distance away from danger.

The F.B.I. headquarters in Seattle has vowed to scrutinize every foot of land between the Sea-Tac airport and Reno to turn up clues in the case.

Despite rewards of 5,000 dollars by the Media's "Fink on your Friends" program the public has generally granted Cooper adoration and somewhat a hero status. An anonymous interviewer from the twice weekly newspaper the 'Seattle Flag' has produced a story from a taped interview with D.B. Cooper which is validated by the presentation of one of the recorded twenty dollar bills included in the ransom money.

This story was run in the 'Flag' because the interviewer was unable to send it to the 'Post-Intelligencer' because they had the 5,000 dollar reward out for Coopers head also television stations would have requested a tape from which voice prints could possibly be produced. Therefore, running the story in the Flag was the only solution.

Cooper said that the witnesses description were off by about fifteen pounds and a couple of inches. Also that the artist's impression were very poor. When asked why he was still in Washington state he added that he felt it was safer to hide where no one would imagine him to be rather than to go to some place like Mexico or South America where the authorities would naturally expect him to go.

He said he started actual work on his skyjacking plan last June. The idea came to him while he was

it was a calculated risk that's why he jumped in bad weather and at night, also he waited a little longer than usual before pulling his ripcord. Adding that his free fall was about 5,000 of the total 7,000 feet. Which was very risky doing at night.

He came down about a hundred miles away from S.W. Washington contrary to the F.B.I. report that he touched down near Vancouver Washington.

The first thing he did on landing was bury his chute, he was within five miles of where he had intended in an evergreen wooded terrain. He credited this accuracy to his projected calculations and his Japanese watch. He wouldn't say whether he had an accomplice on the ground. He said he had lived in Seattle and had once

two parachutes he had ordered. A stewardess came back with the money in a canvas bag to where Cooper was holding another stewardess as hostage in the rear of the passenger cabin.

Cooper checked out the loot, first thing and noticed that they reeked of duplicating fluid. Then the stewardess made two more trips out on to the runway to bring in the chutes.

Then one of the fuel trucks pulled up...then he ordered the passengers off the plane, and everyone else into the cockpit...a middle-aged, executive looking man started to push his way back through the line into the tourist cabin. Cooper tensed up expecting the guy to try something heroic - but he had just left his briefcase on his seat and was retrieving it...

worked at Boeing's on the construction of the first Boeing 727 in 1963 and got to know the 727 from the inside out.

The reason he was attracted to the plan was the alignment of the three Pratt & Whitney engines two on the sides of the rear fuselage and the third at the base of the T-tail assembly. Also the down-flaps stalling speed. One hundred

He figured if the F.B.I. was going to make a move it would be at Sea-Tac. Everybody but the stewardess he was holding hostage and the three man crew was clear of the plane. Buzzing the cockpit he asked the captain what the hold-up was. Trouble with the vapor lock was the answer. And another truck was coming. Cooper told the Captain: "Not more than one fuel truck at a

The following investigation was conducted by
SA [redacted]

AT PORTLAND, OREGON

b6
b7C

On February 20, 1980, [redacted]
[redacted] U. S. Army Corps of Engineers, Portland District,
telephone [redacted] was contacted regarding the possibility that
bait money found near the [redacted] on February 10,
1980, could have been brought to that area by a river feeding
the Columbia River from the north.

The area believed to be the drop zone of the subject in
1971, is described as that area in the State of Washington
bounded on the north by the Lewis River, the east by the
Clark County-Skamania County line, and the Columbia River.

[redacted] advised the only likely river feeding the Columbia
River within the above described drop zone that would be
capable of moving several bundles of money or a package
about 16x16x4 inches to the Columbia River would be the
Washougal River. A logical time, if the money came down the
Washougal, would have been during the December 2, 1977
Washougal flood when parts of the river were approximately
ten feet over the normal winter flood stage.

b6
b7C

There are several other streams that feed the
Columbia River upstream from the [redacted]
however, due to size, or the degree of slope of the
streams, it is unlikely that a small package would have
made it to the Columbia. It is also unlikely that a
small package would have passed through Lacamas Lake downstream
to the Columbia.

b6
b7C

[redacted] stated that based on the three feet per second
speed of the Columbia River, if a small package entered the Columbia
River at Washougal, Washington, and floated in the main stream
of the river to the [redacted] a distance approximately
thirty miles, it would take 14.7 hours. This is assuming that
the package did not tumble along the bottom of the river or
get caught on any snags.

The following investigation was conducted by SAs
[REDACTED] on February 13, 1980:

AT PORTLAND, OREGON

[REDACTED] Waterways Maintenance Branch, Navigation Division, U.S. Army Engineer District, 319 S.W. Pine, telephone [REDACTED] was contacted regarding dredging operations on the Columbia River since November 24, 1971. The purpose of obtaining this information was to determine if it was possible that the bait money located on the beach property on the [REDACTED] Vancouver, Washington, on February 10, 1980, could have been placed there through dredging operations on the Columbia River.

[REDACTED] after a review of his records, advised that the only dredging operation between November 24, 1971, and the present in the vicinity of the [REDACTED] was during August 6 through September 18, 1974.

Material dredged from the river channel in the Columbia River was placed in several locations on or near the [REDACTED] as well as one location across the river on the Oregon side.

The dredge material deposited at the site where the money was located came from the north half of the ship channel, which is 300 feet wide, between river mile 96 plus 38 feet and river mile 97 plus 17 feet. This material was deposited on the beach area of the [REDACTED] between August 19 through the 25th, 1974, and consisted of 91,100 cubic yards of fill.

The channel is maintained at 40 feet in depth and all the material above 40 feet is dredged out. The dredge "Washington" of the General Construction Company did the dredging on this project. It had a 24 inch pipe with wiper bar inside the pipe. The wiper bar keeps large objects such as rocks from passing through the pipe. [REDACTED] stated it would be possible for a 16x16x4 inch package to get through the pipe; however, it is likely that a package that size or a human body or parts thereof would

[redacted], Portland State University, home address [redacted], home telephone number [redacted], work telephone number [redacted] was interviewed following [redacted] Tena Bar in Vancouver, Washington, where portions of \$20 bills had been found. These \$20 bills were among the money furnished a person identifying himself as D. B. COOPER during a 1971 airplane high-jacking attempt. [redacted] was interviewed by SA [redacted] of the Portland, Oregon, FBI Office.

b6
b7C

[redacted] advised that he found the beach area in the vicinity where the money was found to be in approximately four different layers. These layers consisted of an upper sand layer, a post dredging sand layer, a clay lump (dredge) sand layer, and below that an older sand layer. The upper layer consisted of six inches to eight inches of reworked beach sand and is the sand which contained the fragments and bundles of the recovered money. This sand also contained soda pop cans and other debris, which were not severely damaged or rusted. The post dredging sand contained older soda pop cans, rusted nails and spikes, and other rusted artifacts, which were in a much more deteriorated condition. The clay lump (dredge) sand was a mixture of coarse sand and fragments of organic clay material, ranging from one inch to five inches in size. Based on U.S. Corps of Engineering records which reflect that they dredged the Columbia River at this site in 1974, [redacted] stated this clay layer in all probability, was deposited during that 1974 dredging. The older sands, which were light in color and uniform in texture and which were found below the clay lump sand, were deposited prior to the 1974 dredging.

b6
b7C

[redacted] advised that in the post dredging layer, he found cross bedded coarse and medium sand, which indicated the river and river waves had worked repeatedly on this layer since 1974. The upper six inches to eight inches of reworked beach sand is the active layer which is currently being worked by the water of the Columbia River.

b6
b7C

Based on the condition of the money through observation, [redacted] advised that the money was probably washed into the location where it was found by natural river flow and was probably placed at the location of Tena Bar during the last rise in the Columbia River in the past two or three months.

[redacted], WXIA TV,
1611 West Peachtree Street, furnished the following
information:

He made available an original letter which is
typewritten and addressed to him, dated December 31,
1979, which is signed D. B. Cooper.

He also made available the envelope containing
this letter and a 3 x 5 card which was enclosed with the
letter and bearing the numbers "5346225496754."

He stated that he received this letter several
weeks ago and felt upon reading the letter that the
writer was not actually D. B. Cooper, a skyjacker, and
he based this assumption on the fact that the writer
stated the skyjacking occurred in 1969, which is erroneous.
He stated that he was making this letter available in view
of the recent publicity concerning D. B. Cooper.

Xerox copies of this letter and the envelope and

RE: D.D. Cooper

I had the pleasure, or should I say the opportunity of talking to D.D. Cooper in Portland Oregon, in a night club, right after his celebrated Hijacking, in which he parachuted out of an airplane, and into history.

It was actually a chance meeting, but he was talking to me in a low voice about how he didn't need the money, only the prestige of knowing that the F.B.I. could be had, he stated to me that the F.B.I. only respect a sharp. and wise criminal, and that the sharper you are the less crime that you do.

D.D. Cooper mentioned to me that the latest pictures of him in the paper were not accurate, and that he was going to have Plastic Surgery, his words were Cosmetic Surgery.

D.D. Cooper was the coolest man that I had ever met, he seemed so professional; He talked of pulling one more job, on the level of the great Brinks robbery, this was to be done in Las Vegas, because he stated that few people had ever pulled off a big heist in Las Vegas, and lived to tell about it; I replied; D.D. That's Mafia money you're talking about, and he said yeah, I know, that's what keeps me motivated.

I'll say one thing for D.D. he loves Tattoos, he has them all over his arms, and legs. He claims that he paid a fortune to have them did when he was in the army.

I could go on talking about D.D. Cooper all day, but I must close now; For D.D. Along with Former President Richard M. Nixon are like so many other self-tortured souls who are vengeful of the F.B.I. for turning them down, when they so desperately wanted to be a member of the F.B.I.

I thank you.

ARMED AND DANGEROUS

Synopsis: To set lead for Special Projects Section to conduct aging of original composites of subject Cooper.

Enclosures: Enclosed for the Special Project Section are two color copies of a composite sketch prepared by the Exhibits Section, Administrative Division, dated 1/2/1973, one depicting subject in dark glasses. Also enclosed is a synopsis of captioned event to include subject's physical description and age as of the date of the hijacking, 11/24/1971.

Details: Above-referenced telcalls with SSA [REDACTED] Special Projects, has indicated that aging of these photographs should be possible. A review of the case subfile concerning this sketch has determined that the original sketches were maintained by the Exhibits Sections under Bureau file number 164-2111. These sketches, although not the first prepared by the Exhibits Section for this case, were determined to be the best likeness of subject Cooper.

b6
b7C

DOJ and the Seattle U.S. Attorney's Office have recently reaffirmed that the statute of limitations in this crime is infinite due to hijacking being a capital offense in 1971. Captioned matter remains the only unresolved hijacking in U.S. history. It is anticipated that the original sketch and aged sketch will receive nationwide media attention as several networks, including ABC and the Discovery Channel are apparently planning to once again run presentations on this case.

ReBuairtel 1/2/73 to Seattle, Denver, and Minneapolis.

The color sketch prepared of Unsub in captioned case, which is marked "B" and dated 1/2/73, is considered by Exhibits Section at this date to be the best likeness obtainable from descriptive data available. The original artist's sketch, with and without sunglasses and designated as "A" sketch, was a black and white rendering of Unsub prepared immediately following hijacking. Subsequently the color sketch, with and without sunglasses, was developed and marked as "B" sketch. Although a divergence of opinion regarding certain characteristics has appeared in descriptions given by the various witnesses, the consensus indicates that a good likeness of Unsub is shown by the artist's sketch and that the "B" sketch with the added dimension of color more accurately shows the Unsub's age and overall likeness.

In view of the numerous contacts with the witnesses who supplied the descriptive data from which the sketch was prepared and the lapse of time since they observed the hijacker, it is felt no constructive purpose can be served by further attempts at modification based on contact with these same witnesses.

Enclosed herewith for the Little Rock Office is one copy each of artist's conception A and B of unsub dated 1/2/73.

On 3/27/73 revised color sketches were displayed to [redacted] Northwest Airlines (NWA), who was aboard Flight 305, 11/24/71, and she advised that sketch B bears close resemblance to unsub. She advised that unsub is not as "smooth looking" as sketch B. [redacted] advised that all features, with the exception of the lower lip, bear very close resemblance to unsub. She advised that unsub's lower lip gave a "pouty" appearance. Lower lip of sketch B has too much flesh toward the corners of the mouth. She advised that the middle of the lower lip appears larger due to the slimness of the corners of the lower lip.

 2/22/73.

Enclosed for each receiving office are two copies of an
 artist's conception showing UNSUB with and without glasses. The
 following offices will receive more copies because of investi-
 gation in their divisions:

Portland	50 copies
Las Vegas	10 copies
Denver	10 copies
Sacramento	10 copies
San Francisco	10 copies
Butte	10 copies

The intent of this change to the artist's composite is
 to more clearly show UNSUB's age and swarthy complexion.

A release of an interim composite (one that had not been
 fully evaluated by NORJAK eyewitnesses) in the December FBI Law
 Enforcement Bulletin makes it imperative that this final version
 not be released to the news media at this time.

This is the only unsolved hijacking; it should receive
 expeditious handling with every investigative effort expended to
 resolve this matter.

THE CRIME

A lone white male boarded Northwest Orient Airlines Flight Number 305 at Portland, Oregon, on November 24, 1971. At approximately 3:22 p.m., while the flight was en route to Seattle, Washington, he indicated to a stewardess that his briefcase contained a bomb which would blow up the plane unless his demands were met.

The hijacker demanded \$200,000 and four parachutes in exchange for the safety of the 36 passengers aboard the plane. When the aircraft landed at Seattle, Northwest Orient Airlines complied with his instructions. After he received the parachutes and money, the hijacker allowed all passengers and two of the airline stewardesses to deplane.

He then ordered the remaining crew members into the first-class section of the aircraft and informed them he desired to fly to Mexico City. The hijacker instructed that the plane proceed in a southerly direction and fly at a low altitude and slow speed which enabled the rear door of the plane to be opened during the flight.

On 11/30/72, revised color sketches were displayed to [redacted] Stewardess, Northwest Airlines (NWA), who was aboard Flight 305, 11/24/71; and she advised it is an excellent general likeness of Unknown Subject. This sketch is identified as "B" and dated 11/10/72. She stated the only suggestion she would have is that the nose should be slightly smaller and not as rough or lumpy looking. She also stated that the mouth of the individual she observed on this flight did not appear quite as full, in other words, was "a older looking mouth". She indicated she would define "older mouth" as being very slightly wrinkled around the lips and not having as full an appearance in the lips.

On 12/1/72, [redacted] NWA, Stewardess, who was also aboard Flight 305, stated that she believed sketch "B" is more similar to the appearance of Unknown Subject than the earlier black and white and colored sketches. She did note that she observed the Unknown Subject from the side and never did see a full-face view of him. ★

she stated that sketch B appeared to be a likeness of an individual who was coarse and a hoodlum-type, which she did not consider the Unsub to be. She stated that he was more refined in appearance than sketch B indicates. He did not appear to be as tough and rugged as sketch B indicates.

[redacted] continued, stating that the nose on sketch B is too rugged and heavy, and she would consider his nose to appear like something "in between" the nose drawn on the early artist's conception and sketch B. She further stated that at this time she was not certain that the upper lip turned down at the corner as portrayed in sketch B. She pointed out that during her contact with the Unsub, he for the most part was seated on her side so that she saw only his profile. She never observed him from straight ahead, and most of the time he was whispering in her hear, and therefore, she was not in a good position to observe his facial features in great detail. She admitted that because of the time lapse, she is getting somewhat foggy in recalling his exact appearance and has looked at the artist's conception so often she feels she is influenced somewhat by this. After observing the new sketch B, she stated that she likes the original artist's conception better as being a good resemblance to the Unsub. She felt that artist's conception B definitely was not a good similarity to the Unsub. She felt that artist's conception B was not "him" and his appearance was lost completely in the sketch without the sunglasses. In particular, she noted that the hairline on sketch B was incorrect, and that she preferred the hairline on the original artist's conception. She stated on the original artist's conception it would be identical

[redacted], examined the artist's
color composite of Unsub and made the following comments:

Nose

Better than original artist's
drawing.

Glasses

The frame should be wider where it
meets the glass part of the eye-
glasses. The glasses on the
original composite are better
than on the new color sketch.
The color of the glasses can best
be described as dark honey brown.

Hair color

Good.

Hairline

Too low. Much better in the
original artist's composite.
Hair had a greasier appearance
than shown in the color composite.

Complexion

Slightly paler. More towards
the yellow side.

Age

About right.

Chin

Little too long.

Mouth

A little too small and drawn
down. Upper lip too pressed.

Ears

Satisfactory.

Neck

Not as much room between chin

[] further advised that the original artist's sketch with glasses on should have larger eyes, a wider nose, and a wider mouth.

b6

[] stated the hijacker looked honest with a "kind of nothing" appearance.

[] advised he could correct and suggest changes to an artist's sketch done in a two-thirds to three-quarters perspective if one were presented to him.

b6

On September 1, 1972, []
[], Seattle, Washington, telephone number []
[], made the following comments after viewing the color sketch:

Facial features	Features in color sketch were similar to hijacker's.	b6 b7C
Face	Should be a little wider in the middle but the forehead was the correct size and should not be changed.	
Mouth	Okay	
Glasses	Satisfactory	
Nose	Should be flatter and wider.	
Hair	Should be heavier and greasier. Hair color good.	
Age	About right according to [] who stated the color composite resembled a man approximately 40-42 years of age.	b6 b7C
Complexion	Color composite should be changed to reflect a man with a slightly darker complexion.

SE 164-81

[redacted] stated he thinks he still remembers the hijacker but advised he only got a quick look at him.

On September 5, 1972, [redacted]

[redacted], telephone number [redacted], viewed the color composite of unknown subject and made the following comments: concerning the sketch with glasses:

Hair Color good but should be curled more.

Lips Not submissive enough.

[redacted] made the following comments concerning the picture without glasses:

Appearance Hijacker did not have as nasty or as angry an appearance.

Hair Color correct.

Age Too old by approximately four years. [redacted] stated the age of the individual depicted in the color composite looked to him to be about 45-48 years old. It was his opinion unknown subject was approximately 38-40 years old.

Complexion Forehead should be slightly more copper colored, otherwise complexion was good. [redacted] advised the lights on the airplane could possibly account for some of the swarthy appearance of unknown subject.

Cheeks Should be slightly fuller.

Mouth Too emphasized. Definitely wrong.

Nose Better in the color sketch than in the original drawing.

Chin Satisfactory.

ReSEairtel to Bureau dated 8/22/72, requesting mats of the artist's conception prepared in captioned matter for use in obtaining more widespread publicity.

In accordance with the request of the Seattle Office 8/7/72, a color artist's conception was prepared and forwarded to the Seattle Office. To date the Bureau has received no evaluation of this color sketch. Seattle's request for mats will not be further considered until the Bureau receives an evaluation by the witnesses of the color sketch.

For the information of the Seattle Office, commercial engravers charge \$10 per 50 minutes plus an initial charge of \$8 for a 4" x 5" plate. These mats will only reproduce in black and white. Many publishers both large and small presently use the offset printing process which does not require a mat.

The Seattle Office should promptly coordinate review of the Bureau's color sketch for the purpose of evaluation. If it is deemed advisable that the mats be prepared, resubmit your recommendation.

Reurairtel dated 8/7/72.

Bureau artist developed composite drawing of NORJAK Unsub with sunglasses based on interviews with stewardesses [redacted] and [redacted]. On 11/27/71 stewardess [redacted] while viewing original sketch prepared, commented that it was "almost 100% like him" and stated she could suggest nothing additional to make sketch a better likeness.

b6
b7C

With reference to photo KK5-1 in the Bureau's Facial Identification Catalog, it is noted [redacted] indicated on her initial interview it would bear a resemblance to Unsub if modifications were made. She selected ten additional photos as resembling various features of Unsub. This plus the comments and look-alike photos selected by stewardesses [redacted] and [redacted] went into the preparation of composite drawing with sunglasses. The sketch was modified to show the eyes when additional witnesses later selected look-alike photos of the eyes.

b6
b7C

The attempt to depict the apparent age of Unsub has proven difficult from the beginning since witnesses did not describe age lines or features that lend themselves to the aging process. Preparation of the drawing in color may contribute to the aging factor as well as show the complexion color. In view of [redacted] more recent comments, an additional sketch in color and labeled "B" has been prepared by Exhibits Section with and without sunglasses. The "B" sketch is based on photo KK5-1 from the Catalog with changes suggested by [redacted]. Original sketch previously prepared from combined descriptions of several witnesses will be retained in Bureau files.

Preparation of profile view of Unsub will be held in abeyance until your office determines whether or not an available witness can supply sufficient descriptive data for sketch of side view to be made. If this description is available Exhibits Section should be advised accordingly.

Advantages offered by full length sketch in standing position appears questionable. A full length sketch is recommended only if it shows some descriptive feature that deviates from the average and can better be described pictorially than written.

Enclosed herewith are twenty photographic copies of "B" sketch in color. Ten show Unsub with sunglasses, ten without. They should be displayed to available witnesses for their evaluation and comments.

RE: ARTIST'S CONCEPTION

Enclosed is a copy of photo KK5-1 in the Facial Lines Section of the Facial Identification Catalogue, and a copy of the artist's composite of UNSUB.

The following information is being submitted for Bureau review, and the enclosed leads are being set forth on an UACB basis:

On 12/2/71, a key witness, [REDACTED], insisted that the artist's conception was not a good likeness of the hijacker. She requested permission to examine the Facial Identification Catalogue and immediately picked out photograph KK5-1 in the Facial Lines Section stating, "that is him, except for the ears and hair." She explained that the person depicted in that particular photograph resembled the man; however, the ears of the hijacker did not protrude as far from the head and she felt that the hair line should be somewhat lower than that on the man depicted on photo KK5-1. She was very adamant in her insistence that the artist's conception shown to her was not a good likeness of the hijacker.

b6
b7C

A comparison of the artist's composite of UNSUB and photo KK5-1 revealed the primary difference between the two photos is UNSUB's composite appears to be a man much younger than the man depicted in photo KK5-1. The man in KK5-1 appears to be in his mid-40s while the composite shows the man in his late 20s or early 30s.

She was [redacted]
to Northwest Airlines Flight 305, that was hijacked between
Portland, Oregon, and Seattle, Washington, on November 24,
1971. She had previously related to Special Agents of the
FBI at Seattle all details that she could recall concerning
the hijacker, and understood that the purpose of this inter-
view was to assist in the preparation of an artist's concep-
tion of the hijacker, by answering certain questions regarding
the best recollection she has as of this time of the hijacker.

b6
b7C

[redacted] described the hijacker generally as a white
male, age 38-45, olive complexion, height 73 inches, weight
165-170 pounds, slim build, and hair dark brown or black.

b6
b7C

She was unable to describe his eyes as he wore hore-rimmed
dark glasses at all times she observed him while aboard the
flight, and she further pointed out that [redacted]
[redacted] permitted to leave the plane at
Seattle.

b6
b7C

When questioned further to further define various
characteristics of the hijacker, she described his head as
oval, eyes unknown, eyebrows average, nose small, mouth small,
thick lower lip, thin upper lip, chin pointed, ears average,
cheek and cheekbone average, hair straight, and slightly
balding. She could not make any comment concerning facial
lines, and said he did not have a moustache, beard or pockmarks
and skin irregularities.

informed as follows:

On viewing a facsimile copy of an artist's conception of the hijacker on Northwest Flight 305, on November 24, 1971, she stated that the conception was not, in her opinion, a good likeness of the hijacker. She requested permission to examine the Facial Identification Catalog, and immediately picked out photo number KK5-1, in the Facial Lines Section, stating, "that is him, except for the ears and hair." She explained that the person depicted in that particular number photo closely resembled the man; however, the ears of the hijacker did not protrude as far from the head, and she felt that the hair line should be some lower than that on the man depicted in photo number KK5-1. She was very adamant in her insistence that the artist's conception shown to her was not a good likeness of the hijacker.

On viewing a facsimile copy of the artist's conception of the hijacker, based on information furnished by her earlier that date to Special Agents of the FBI, advised that the drawing is a good likeness of the hijacker; however, she would make the glasses wider on the head, and the face should be a little longer. This was the only correction she could suggest at this time.

Sub K

b6

Enclosed is a copy of photo KK5-1 in the Facial Lines Section of the Facial Identification Catalogue, and a copy of the artist's composite of UNSUB.

The Bureau advised by teletype dated 12/17/71 as follows:

"It is expected the Seattle Office will continue to give this matter close supervisory attention and insure investigation is conducted promptly and thoroughly."

In view of this, the enclosed information is being submitted in memorandum form, first for supervisor evaluation and approval prior to being forwarded to the Bureau for approval.

A key witness, , was very adamant in her insistence that the artist's conception was not a good likeness of the hijacker. In an FD-302 dated 12/2/71, stated that the conception was not, in her opinion, a good likeness of the hijacker. She requested permission to examine the Facial Identification Catalogue and immediately picked out photo #KK5-1 in the Facial Lines Section stating, "that is him, except for the ears and hair." She explained that the person depicted in that particular photo closely resembled the man; however, the ears of the hijacker did not protrude as far from the head and she felt that the hair line should be somewhat lower than that on the man depicted on photo KK5-1. She was very adamant in her insistence that the artist's conception shown to her was not a good likeness of the hijacker.

b6
b7C

A comparison of the artist's composite of UNSUB and photo KK5-1 revealed the primary difference between the two photos is UNSUB's composite appears to be a man much younger than the man depicted in photo KK5-1. The man in KK5-1 appears to be in his mid-40s while the composite shows the man in his late 20s or early 30s.

On 12/8/71, [] of the Bureau advised that the Director had given his approval for the publication of the artist's sketch in the publication "PARACHUTIST" as requested in Seattle teletype.

b6
b7C

He advised that a sketch prepared by the artist of the UNSUB both with and without the glasses, would be furnished to the San Francisco Office for publication as above mentioned.

[] also asked if the entire course of the flight had been searched. He was advised that the pertinent part of the State of Washington as well as all of Oregon, and Nevada, had been checked but apparently the area in California had not yet been searched due to the fact that the reconnaissance plane had been unable to fly the course due to bad weather.

b6
b7C

[] advised that Sacramento should be immediately contacted and requested to do a thorough search of the area, the same to be handled within the bounds of good judgment.

b6
b7C

[] also had other questions, one of the ones he asked was, -

b6
b7C

Did the UNSUB use the lavatory he [] wondered whether he might have taken the money in there to check it.

b6
b7C

He was advised he used the lavatory before the passengers left the plane because one of the passengers saw him. He was further advised that apparently he did not check the money in the lavatory because the stewardess observed him examining the money.

[] also advised that the Bureau was preparing for field-wide distribution, a wanted flyer which would contain both sketches of this UNSUB, the one with glasses and one without. Exactly when this would be sent out, he did not say.

On 11/30/71, the Bureau sent out a new artist's conception without glasses and requested we show it to witnesses. Subsequently I called [redacted] in Division 6, and told him witnesses [redacted] did not see subject's eyes; they saw him only with the dark glasses. I told him with regard to witness [redacted], that this witness thought the eyes were "good." This witness still maintains however, that the forehead should be slightly broader; the nose around the nostrils should be broadened and the cheeks were to flat and should be made rounder.

b6
b7C

[redacted] requested that we send him a teletype on this and also forward the artist's conception in which our witness had drawn in his suggested changes. This was done.

b6
b7C

[redacted] threw the following out for our guidance, instruction and consideration:

b6
b7C

1. He said in our initial teletype, page 5, we have one witness saying that the subject carried a dark colored attache case and a paper bag 4"x12"x18". He wonders if this paper bag could have contained a jump suit and a pair of boots.

2. In the same teletype, there was mention that a witness scuffled with the subject. I told him that I had already discussed this with the Agents involved and this was a wrong choice of words and that the word should have been "hassel" and that there was actually no scuffle and the witness had not had to separate the two, but merely stepped in to end an argument.

b6
b7C

3. [redacted] wanted to know if we had enlisted hiking clubs and other outdoor groups to aid in the search.

I told him that we had used only law enforcement personnel; that this was extremely rugged terrain and not the kind of territory you could lay off in a grid and search minutely at arm's length. He said to include in our next teletype something about the terrain. *Handwritten: Search*

Done 11-30-71
4. He also said to include in our next teletype something about weather conditions in the drop area at the time the drop occurred.

5. He also wanted to know if we had given consideration to hiring a professional parachutist or make a simulated drop with a dummy and following it to the ground. He wondered if anything could be gained by such a maneuver. *SAC*

I pointed out to him that anything we did by way of simulating the conditions would be a very broad approximation since we didn't know exactly where the plane was, assuming that the hijacker did go out at 8:12 PM, when they felt the "oscillation". Since this would vary with such factors as wind direction; which side of the flyway the plane happened to be on at the time, etc. He said he understands this but he would like us to think about it.

[REDACTED] (contacted 11/29/71), of [REDACTED], Seattle, was displayed an artist's conception of the hijacker. After studying the artist's sketch, [REDACTED] made the following comments.

b6
b7C

He stated that the hijacker had an over-all appearance which was in some ways similar to the artist's sketch; however, he recalled that the hijacker had a broader nose, wider forehead and face in general, than that depicted in the sketch. He also noted that the hijacker's hairline was somewhat lower than the sketch and the hijacker's glasses had squarer corners than the round corners or cornered glasses depicted in the sketch.

On 11/29/71, [REDACTED] stated hairline was good. Hair itself should be marcelled and hair style of President NIXON is quite similar to what UNSUB had. Hair should be slicked down as characters wore in old GEORGE RAFT movies. Nose in artist's conception too pinched, should be broadened in area of nostrils. Cheeks too flat, should be more rounded to give Mexican-American appearance. Chin area good.

cc- ARTIST'S SKETCH

SA NORMAN BELFREY, Portland Division, called and advised/witness [redacted] said that the chin and cheek bone (of composite photo) are similar to KH 1-8 and facial lines similar to KK 6-3; the neck and chin of UNSUB appear as if he had been fat and lost weight, leaving some flabby skin. Everything from nose up is good; mouth is also good.

Over-all picture of composite makes UNSUB appear younger than he actually is.

CC - ARTIST'S
SKETCH.

[redacted], Northwest Airlines, Portland, Oregon, [redacted] in on instant flight, advised he has looked at the Facial Identification Catalog and selects therefrom Photo No. KB 8-16. He said this is in the heavy-lidded category but he does not recall this applies to UNSUB's appearance, that he has average eyes, of Latin appearance, with a sort of disinterested look (let's-get-it-over-with)

[redacted] thought the artist's conception was very good, over-all, except that the hair did not recede quite so much as he remembers it, it was a little more curly and definitely short.

He also thinks the nose and face slightly too thin, not much, however.

Also feels artist's sketch makes him look younger than he is.

ARTIST SKETCH

SA HENRY SHUTZ called from the Bureau on 11/29/71.

He said that he talked to the artist who interviewed one of the stewardesses, the only one who saw the man without glasses and she was unable to definitely recall what his eyes looked like. I told him we would interview our witnesses here immediately to try to get a set of eyes for the UNSUB and would let him know.
